The academic book has traditionally occupied a distinct position, catering to a specific audience, utilizing specific channels for distribution, and pursuing specific objectives. Although academia heavily depends on books for dissemination and teaching purposes, numerous university and institution campuses and cities no longer include bookstores. The book's academic area has either ceased operations or been moved to a different location. This book display examined the potential new methods, the influence of this change on readers and booksellers, and the evolving connections that have always existed among the library, the user, and the books.

Book exhibitions come in all forms and sizes, attracting a wide array of users, including faculty, students, and staff, and serving multiple purposes. Books possess a distinct aroma, and to fully appreciate it, we must engage in the act of reading. Books have the distinctive quality of being a portable manifestation of enchantment. Book exhibitions act as a precursor to further reading. Book fairs have a crucial role in promoting reading among individuals of all age groups.

The Central Library has organized an annual book display, which will be adorned with a remarkable festive ambiance for a single day on March 15, 2024. The celebration commenced with the inauguration and illumination of the lamps by our esteemed Chancellor, Shri Rajeev Kothiwal, Vice Chancellor Prof. M.P. Panday, and Registrar Prof. Sanjeev Agrawal.
