Study & Evaluation Scheme
of
M.A. (Sociology)
[Session 2022-23]
(As per CBCS guidelines)

Programme	M.A. (Sociology)
Course Level	PG Degree
Duration	Two years (four semesters) Full Time
Medium of Instruction	English/Hindi
Minimum Required Attendance	75%
Maximum Credits	80

	Evaluation Scheme		
	Internal	External	Total
Theory	30	70	100
Practical	30	70	100

Seminar/Industrial Training	100	--	100
Project/ Dissertation	30	70	100

Programme Objectives (POs):

Sociology is the most contemporary and versatile of the Social Sciences. It trains students to grasp social and diversified structures, understand social processes map the dynamics of social change, decipher social interactions and make sense of individual and collective experiences in their social, historical and cultural context. Sociology is at once critical and constructive; conceptual and applied; theoretical and empirical. It is a science that cohabits comfortably with literary flair, speculative sensibility, historical imagination and empirical rigor. It is incessantly reflexive about its methods, demanding about its research techniques and standards of evidence. Sociology is ever so subtle about the conceptual distinctions it draws and zealous about its disciplinary boundaries and identity.

Programme Outcomes (POs):

After completing this programme students will be able to:

- PO1:** Able to develop ethical approach, culture-sensitive, eclectic and evidence-based participatory practice at to fulfill national & Global needs.
- PO2:** These concepts will enhance the conceptual learning and understanding of the basic concepts used in Sociology at national level.
- PO3:** Able to know social issues, concerns and challenges and work in the areas such as - local self-governance, rural development, development of scheduled castes and scheduled tribes, welfare of the persons with disabilities (both mental & physical) to fulfill local needs.
- PO4:** The course is designed to incorporate all the key concepts of sociology which would enable the learner to develop keen insights to distinguish between the commonsense knowledge and Sociological knowledge.
- PO5:** Students able to understand Modern Sociological Theories, Methods and Techniques Statics of Sociological Research.
- PO6:** This course provides comprehensive understanding of Indian society. This course provides the knowledge about classical thinkers, pioneers of Indian society, social process, social development, social change & social movement to fulfill national needs .
- PO7:** Students able to understand basic knowledge of society, Management, Organizational Behavior, rural sociology, urban sociology, political sociology, Industrial Sociology, Social Demography, Science, Technology, Media, Culture and Comparative Sociological Theories.
- PO8:** Students able to understand Disaster Management, Environmental Science, Human Rights, Health Gender, crime, Law and Society, Criminology, Penology and Deviance.

PO9: Students able to develop holistic approach towards the knowledge; skilled, empowered and gain insights with excellence in specific areas and also can get employment both in the public and private sector in the country and abroad an opportunity to be self-employed and starting own NGOs to fulfill national & Global needs .

Programme Specific Outcomes (PSOs):

PSO1: This course will introduce students to new concepts of Sociology discipline.

PSO2: This course is designed to incorporate all the key concepts of sociology which would enable the learner to develop keen insights to distinguish between the commonsense knowledge and Sociological knowledge.

PSO3: These concepts will enhance the conceptual learning and understanding of the basic concepts used in Sociology.

PSO4: This course will contribute in enriching the vocabulary and scientific temperament of the students. And this course provides comprehensive understanding of Indian society.

FIRST YEAR
Master of Arts (Sociology)
Programme
Semester – I

SOCCC102; Methodology of Sociological Research

Course Objectives:

The objective of this course is to explain the meaning and concept of social science research, distinguish between natural and social science research, describe the various types and approaches to social science research, discuss the recent trends in social science research and understand the basic concepts related to research to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

Research Methodology: Meaning, Definition, Nature and Scope; Methods of Social Research: Basic, Applied, Action, Qualitative and Quantitative, Steps in Social Research; Problems of objectivity; Formulation of Research problem for skill development.

UNIT-II

10 Sessions

Hypothesis, Logic of Inquiry: Inductive & Deductive; Research Designs: Exploratory, Descriptive, Diagnostics and Experimental; Sampling: Concept, Types & Significance for skill development.

UNIT-III

10 Sessions

The Data: Types and Source; Strategies used for Research: Survey, Case studies, Content Analysis & Historical Analysis; Tools of Data Collection: Interview, Interview-Schedule, Observation & Questionnaire, and Scaling for skill development.

UNIT-IV

10 Sessions

Statistics: Meaning and Uses in Social Research, Mean, Median and Mode, Correlation & Chi Square test Computer: Brief History, Types and Application of Computer in Social Research, Analysis and Report Writing for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1:Discuss concepts and issues related to Social Science research. Explain the various approaches that can be adopted for conducting social science research.Describe Methods of Social Research: Basic, Applied, Action, Qualitative and Quantitative for skill development.

CO2:Understand the concept of Hypothesis, Logic of Inquiry, Research Designs and sampling for skill development.

CO3:Understand the basic characteristics of different methodologies used for Data collection for skill development.

CO4:Know the application of statistics in social research and how to calculate mean, median, mode and standard deviation for skill development .

FIRST YEAR

Master of Arts (Sociology) Programme

Semester – I

SOCCC103; Sociology of Change and Development

Course Objectives:

The purpose of this course is to familiarize the students with the Social change, Theories, Approaches, Changing conception of development and different perspective, Ecological, Liberal, and substantive knowledge in the aforesaid field to provide employability and skills .

Course Content:

UNIT – 1

10 Sessions

Meaning and forms of Social Change: Evolution, Progress, Development Transformation, Change in Structure and Change of Structure for skill Development.

UNIT – II

10 Sessions

Theories of Change and development; Evolutionary Approach to Social Change: Unilinear and Multilinear; Functional Approach to Social Change: Talcott Parsons; Karl Marx and Max Weber on Social Change; Schumacher, Myrdal, Wallerstein, Frank for skill Development.

UNIT – III

10 Sessions

Changing Conception of Development: Development and marginalized group, Human Development, Social Development, Sustainable Development, Gender and Development for skill Development.

UNIT – IV

10 Sessions

Other Perspectives on Development: Ecological, Liberal, Theories of Development and Underdevelopment: Modernization theories, Center Periphery, World-Systems, Unequal Exchange for skill Development.

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the meaning of Social Change and describe main characteristics of the nature of social change at national level for skill development

CO2: Understand the theories of social change viz. The direction of social change and the cause of social change and assess the process of change for skill development .

CO3: Explain the rationale of understanding social issues in development and analyze various social issues in development such as education, health, nutrition, gender, marginalization and exclusion, and culture for skill development .

CO4: Understand the main aspects of the four major theories of development: modernization, dependency, world systems and globalization at national & global level for skill development.

FIRST YEAR
Master of Arts (Sociology)
Programme
Semester – I
SOCCC104; Comparative Sociology

Course Objectives:

The purpose of this course is to familiarize the students with the Meaning and Scope of Comparative of Sociology, Methods of Study, Indices of Comparison and Central Themes in Comparative Sociology to provide employability and skills .

Course Content:

UNIT – 1

10 Sessions

Meaning and Scope of Comparative of Sociology, Methods of Study– Comparative, Evolutionary, Diffusionistic, and neo-evolutionary for skill development

UNIT – II

10 Sessions

Indices of Comparison: Culture, Nation, Class, Gender, Identity; Ethnicity and Ecology Tribal Society Features: Kinship, Marriage, and Family; Magic and Religion; Totem and Taboo for skill Development.

UNIT – III

10 Sessions

Tribal Economy: Approaches, Exchange – Reciprocity, Redistribution, and Market; Tribal Polity, Law & Justice: State and Stateless Society for skill development.

UNIT – IV

10 Sessions

Central Themes in Comparative Sociology: Culture: trait, complex & area Cultural Relativism; Pluralism; Multiculturalism for skill development .

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the Meaning and Scope of Comparative of Sociology for skill development.

CO2: Understand the Methods of Study, Indices of Comparison: Culture, Nation, Class, Gender and Tribal Society at national level for skill development.

CO3: Explain the Tribal Economy, Exchange, Tribal Polity, Law & Justice: State and Stateless Society for skill development.

CO4: Explain the Central Themes in Comparative Sociology for skill development.

FIRST YEAR

Master of Arts (Sociology) Programme

Semester – II

SOCCC202; Methods and Techniques of Sociological Research

Course Objectives:

The objective of this course is to explain the meaning and concept of social science research, distinguish between natural and social science research, describe the various types and approaches to social science research, discuss the recent trends in social science research and understand the basic concepts related to research to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

Nature of social reality and approaches to it: Positivism, Phenomenology, Ethnomethodology and Symbolic Interactionism, Logic of Inquiry in social science research, Inductive & Deductive, Hypothesis for skill development .

UNIT-II

10 Sessions

Quantitative methods and survey research: Assumptions of quantification and measurement, Survey techniques, Research design, Sampling design, Limitations of survey for skill development .

UNIT-III

10 Sessions

Qualitative Research Techniques: Techniques and methods of qualitative research: Participant observation, Interview, Case study method, Content analysis, Oral history, life History for skill development.

UNIT-IV

10 Sessions

Statistics: Meaning and Uses in Social Research, Mean, Median and Mode, Correlation & Chi Square test Computer: Brief History, Types and Application of Computer in Social Research, Analysis and Report Writing for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1:Discuss concepts and issues related to Social Science research. Explain the various approaches that can be adopted for conducting social science research, as Inductive, Deductive and Hypothesis for skill development.

CO2:Describe Methods of Social Research: Basic, Applied, Action, Quantitative, Survey techniques, Research design, Sampling design for skill development.

CO3:Understand the concept of Qualitative Research Techniques ,Logic of Inquiry, Research designs and sampling, Case study method, Content analysis for skill development.

CO4:Understand the basic characteristics of different methodologies used for Data collection. Know the application of statistics in social research and how to calculate mean, median, mode and standard deviation for skill development.

SOCCC203; Theoretical Perspectives on Development

Course Objectives:

The purpose of this course is to familiarize the students with the Social change, Theories, Approaches, Changing conception of development and different perspective, Ecological, Liberal, and substantive knowledge in the aforesaid field to provide employability and skills .

Course Content:

UNIT-I

10 Sessions

Changing conceptions of development: Economic growth, Human development, Social development, Sustainable development for skill development.

UNIT-II

10 Sessions

Developed and developing societies, Problems of developing societies (With special reference to India) for skill development.

UNIT-III

10 Sessions

Theories of development: Ideas of B.F. Hoselitz, W.W. Rostow, W.A. Levis, Theories of underdevelopment: ideas of Andre Gunder Frank; Emmanuel Wallerstein; Samir Amin for skill development.

UNIT-IV

10 Sessions

Paths of development: capitalist, socialist, mixed economy, Gandhian, Culture and Institutional barriers of development; social structure and development for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the meaning of Social Change and describe Economic growth, Human development, Social development, Sustainable development for skill development.

CO2: Understand the Problems of developing societies for skill development.

CO3: Understand the Theories of development and Theories of underdevelopment for skill development.

CO4: Explain the Paths of development: capitalist, socialist, mixed economy, Gandhian, Culture and Institutional barriers of development at national level for skill development.

SOCCC204; Comparative Sociological Theories

Course Objectives:

The purpose of this course is to familiarize the students with the Meaning and Scope of Comparative of Sociological theories, Methods of Study, Indices of Comparison and Central Themes in Comparative Sociology to provide employability and skills.

Course Content:

UNIT – 1

10 Sessions

Talcott Parsons: Social Action-Social System-Pattern Variables, Theory of Middle Range, -Manifest and Latent Functions- Anomie and Reference Group Theory for skill development .

UNIT – II

10 Sessions

C.W. Mills- Theory of Conflict L. Coser – The Functions of Social Conflict; R. Dahrendorf – Theory of Class Conflict for skill development.

UNIT – III

10 Sessions

C.H. Cooley, G.H. Mead and Herbert Blumer -Symbolic Interactionism for skill development.

UNIT – IV

10 Sessions

George C. Homans and Peter M. Blau -Theory of Social Exchange for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1:Explain the Meaning and Scope of Comparative Sociological theory ,Understand the Social Action ,Theory of Middle Range , Anomie and Reference Group for skill development.

CO2:Explain the Theory of Conflict Understand the Theory of Conflict, the Functions of Social Conflict, and Theory of Class Conflict for skill development.

CO3:Students understand the Symbolic Interactionism for skill development.

CO4:Students understand the Theory of Social Exchange for skill development.

**FIRST YEAR
Master of Arts (Sociology)
Programme**

Semester – II

SOCEC205; Perspectives on Indian Society

Course Objectives:-

This course intends to familiarize students with social, political, economic and intellectual contexts in which sociology emerges as a distinctive discipline. Its objective is to help students gain understanding of classical contribution in sociology and their continuing relevance to its contemporary concern to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

Indological/ Textual Perspective: G. S. Ghurye & Louis Dumont; Structural-Functionalism: M. N. Srinivas & S. C. Dube for skill development .

UNIT-II

10 Sessions

Marxian Perspective: D.P. Mukherjee, & A. R. Desai, Ramkrishan Mukherjee; Synthesis of Textual and Field Views: Irawati Karve & A. M. Shah for skill development.

UNIT-III

10 Sessions

Civilizational Perspective: N. K. Bose & Surajit Sinha; Subaltern Perspective: B.R. Ambedkar & David Hardiman for skill development.

UNIT-IV

10 Sessions

Current Debates: Contextualization, Indigenization, The use of native categories in the analysis of Indian Society, Text and Context, Sociology for India for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the ideas of G.S. Ghurye and Louis Dumont and Discuss in brief about their methodology and contribution to Sociology of India for skill development at national level.

CO2: Explain the ideas of D.P. Mukherjee, & A. R. Desai, Ramkrishan Mukherjee on Theoretical Perspective. Describe the ideas of Irawati Karve & A.M. Shah on Synthesis of Textual and Field Views for skill development.

CO3: Describe the ideas of N.K. Bose & Surajit Sinha on Civilizational Perspective and of B.R. Ambedkar & David Hardiman on Subaltern Perspective at national level for skill development.

CO4: Understand the Current Debates on Contextualization and Indigenization and explain the use of native categories in the analysis of Indian Society, Text and Context, Sociology for India at national level for skill development.

FIRST YEAR

IFTM University, Moradabad

Master of Arts (Sociology)

Semester – II

SOCEC206; Social Demography

Course Objectives:

The objective of this course is to study and analyses the dimensions of human resource and demographic structure in the district, to examine and assess the characteristics of population growth and in order to know dynamic of population in the district, to study and measure the growth and distributional pattern of fertility, mortality and also to know the projections of population in the district, to assess the disparities in the level of demographic development in the study area to provide employability and skills.

Course Content:

UNIT – I

10 Sessions

Social Demography: Nature and Scope, Subject matter of Social Demography; Relation between Sociology and Social Demography for skill development.

UNIT – II

10 Sessions

Population Theories: Malthus' Theory of Population, Dumont's Theory of Population, Theory of Demographic Transition for skill development.

UNIT – III

10 Sessions

Fertility: Determinants, Differentials and Measurement, Mortality: Determinants, Differentials and Measurement, Infant Mortality: Causes and Remedies, Migration: Determinants and consequences for skill development.

UNIT – IV

10 Sessions

Source of Population Data: Census, Vital Statistics, and Sample Survey; Age and Sex Composition, Ethnic and Rural-Urban Composition; Factors Responsible for Rapid Population Growth; Consequences of Rapid Population Growth; Family Planning Programme in India: Problems and Prospects for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1:Understand Nature and Scope Social Demography, and Relation between Sociology and Social Demography for skill development at national level.

CO2:Discuss Malthus' and Dumont's Theory of Population, and Theory of Demographic Transition for skill development.

CO3:Explain Determinants, Differentials and Measurement of Fertility and Mortality, Causes and remedies of Infant Mortality: Determinants and consequences Migration for skill development.

CO4:Understand the Source of Population Data and Factors Responsible for Rapid Population Growth. Describe Family Planning Programme in India for skill development.

Semester – II

SOCEC207; Science, Technology and Society

Course objectives:

The course introduces the interdisciplinary field of research, Science, Technology and Society (STS) Studies to the students. The interface between science, technology and society will be looked into from a range of theoretical perspectives to provide employability and skills.

Course Content:

UNIT – I

10 Sessions

The relationship between science and the social, Conventional view of philosophers and historians of science, Sociology of Science (Karl Manheim-Robert K. Merton), Social Function of Science-(Joseph Bernal) for skill development and employability.

UNIT – II

10 Sessions

Feminist and Postcolonial Studies of Science Women in Science, Gender and Science, Has feminism changed science? Feminist epistemology, the Enlightenment for skill development and employability.

UNIT – III

10 Sessions

Colonial science, human body and science, comparative anatomy in the 19th century, caste and gender in Indian science for skill development and employability.

UNIT – IV

10 Sessions

Questioning of the traditional boundary between science (knowing) and technology, Critical Theory of Technology, Social Construction of Technology for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand The relationship between science and the social, Conventional view of philosophers and historians of science for skill development.

CO2: Understand The Sociology of Scientific Knowledge (SSK), Post colonial Studies of Science and Feminist Studies of Science for skill development.

CO3: Understand the Colonial science, human body and science, comparative anatomy in the 19th century for skill development at national level.

CO4: Understand the Questioning of the traditional boundary between science (knowing) and technology for skill development.

SOCCC301; Modern Sociological Theories

Course Objectives:

The objective of this course is to have knowledge about the development of modern sociological theory, to Understand the meaning of central concepts and theories in modern sociological theory, to identify important similarities and differences between modern sociological theories, to know how modern sociology has been shaped by classical sociology, to be able to account for and to analyze the content of central texts by modern sociologists in a clear, well put and well-argued manner, to use relevant parts of modern sociological theory, to analyze social phenomena and to critically assess modern sociological theories in terms of their merits and limitations to provide employability and skills.

Course Content:

UNIT- I

10 Sessions

Nature and Types of Sociological Theory; Functionalist Perspectives: Talcott Parsons-Social Action, Pattern Variables, Functional Prerequisites of Social System; Robert K.

Merton-Functional Analysis, Reference Group, Middle Range Theories; Jeffrey Alexander-Neo-functionalism for skill development.

UNIT- II

10 Sessions

Conflict Perspectives: L. Althusser – Structural Marxism; Antonio Gramsci- Hegemony, Dahrendorf- The Class and Class Conflict in Industrial Societies, Lewis Coser- Functions of Conflict for skill development.

UNIT- III

10 Sessions

Interactionist Perspectives: G.H. Mead- Mind, Self and Society; Erving Goffman- Presentation of self in everyday life; A. Schultz- The Phenomenology of Social World; Garfinkel – Ethno-methodology; P. Berger and Luckmann- The Social Construction of Reality for skill development.

UNIT- IV

10 Sessions

Jurgen Habermas - Public Sphere and Communicative Action; Michael Foucault - Discourse, Knowledge & Power; Jacques Derrida – Deconstruction; Anthony Giddens- Structuration; Pierre Bourdieu – The Concept of Habitus and Capital; Ulrich Beck - Risk Society for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the Nature and Types of Sociological Theory and describe the Functionalist Perspectives of Talcott Parsons, Robert K. Merton and Neo functionalism of Jeffrey Alexander for skill development.

CO2: Explain the Conflict Perspectives and Structural Marxism of L. Althusser, Hegemony of Antonio Gramsci, The Class and Class Conflict in Industrial Societies of Dahrendorf-, Functions of Conflict of Lewis Coser for skill development.

CO3: Explain the Interactionist Perspectives and assess the works of G.H. Mead, Erving Goffman, A. Schultz, Garfinkel, and P. Berger and Luckmann on it for skill development.

CO4: Describe the work of Jurgen Habermas on Public Sphere and Communicative Action and of Michael Foucault on Discourse, Knowledge & Power. Describe the work of Jacques Derrida on Deconstruction, Anthony Giddens on Structuration Pierre Bourdieu on the Concept of Habitus and Capital, and Ulrich Beck on Risk Society for skill development.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – III
SOCCC303; Social Anthropology

Course Objectives:

The objective of this course is to understand the meaning, scope of anthropology and its relationship Sociology, to know the development and scope of social anthropology as a subject, Describe the main perspectives or theories in socio-cultural anthropology, Understand the forces that shaped the development of anthropological theories, Describe the main characteristics and types of anthropological research methods, Define the concepts of kinship, Define religion, Describe the religious diversities that exist in the world, Appreciate the role and functions of religion in society and Describe the Concept of Tribe and Tribal Community Development, Tribal Policies in India to provide employability and skills.

Course Content:

UNIT – 1

10 Sessions

Definition Nature and Scope of Social Anthropology and its relationship with Sociology, Features of Tribes and Concept of Tribe Caste Continuum in India for skill development.

UNIT – II

10 Sessions

Origin of Social Anthropology: Evolutionism and Diffusionism, Later theoretical development: Functionalism, Structuralism: L Strauss and Nadel for skill development.

UNIT – III

10 Sessions

Study of Kinship and its importance in Primitive Societies, Types of Kinship Groups, Theories of Origin of Religion: Evolutionary and Functional, Magic and Religion and its importance in Primitive Societies for skill development.

UNIT – IV

10 Sessions

Tribe: Meaning and chief Characteristics, Socio-Economic features of Tribes, Features of Tribal Family and Marriage, Problems of Tribes, Tribal Policies of Segregation, Assimilation and Integration for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand the meaning, scope of anthropology and its relationship Sociology.

Explain Features of Tribes and Concept of Tribe Caste Continuum in India for skill development.

CO2: Understand the factors that shaped the development of anthropological theories namely Evolutionism and Diffusionism, Functionalism and Structuralism for skill development.

CO3: Define Kinship and its importance in Primitive Societies and describe Types of Kinship Groups. Explain the Theories of Origin of Religion namely Evolutionary and Functional, Magic and Religion and its importance in Primitive Societies for skill development.

CO4: Describe the Concept of Tribe, Tribal Community Development and Tribal Policies in India for skill development.

**SECOND YEAR
Master of Arts (Sociology)
Programme**

Semester – III

SOCEC304; Sociology of Indic Studies

Course Objectives:

The objective of this course is to understand the meaning, scope of Indic Social Philosophy and its The Traditional Concept of Reality, The Theory of Natural Hierarchy of Human Society and Historical Indian Religious Systems to provide employability and skills.

Course Content:

UNIT – 1

10 Sessions

The Metaphysical Foundations of Indic Social Philosophy, The Traditional Concept of Reality: Maya, Para and Apra Vidya; the Indic Philosophy of History for skill development.

UNIT – II

10 Sessions

The Theory of Natural Hierarchy of Human Society; Dharama and the Law of Karma, Rituals, Marriage & Family for skill development.

UNIT – III

10 Sessions

The Traditional Protest Movements: Buddhism, Jainism and Sikhism with reference to Ideology, Social Correlates and Conceptions of Salvation for skill development.

UNIT – IV

10 Sessions

Historical Indian Religious Systems: Monotheism vs. Polytheism, the Religion in The Contemporary World; Secularism and New Religious Movements for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand the meaning, scope of Indic Social Philosophy and its The Traditional Concept of Reality, Indic Philosophy of History for skill development.

CO2: Explain The Theory of Natural Hierarchy of Human Society in India at national level for skill development.

CO3: Understand The Traditional Protest Movements for skill development.

CO4: Explain the Historical Indian Religious Systems, the Religion in The Contemporary World for skill development.

SECOND YEAR

Master of Arts (Sociology) Programme

Semester – III

SOCEC305; Statistical Packages for Social Science

Course Objectives:

The objective of this course is to understand the meaning, of SPSS, Questionnaire/Schedule Design, Characteristics of Variable Identification, Scaling: Nominal, Ordinal, Interval, Charts and Diagrams to provide employability and skills.

Course Content:

UNIT – I

10 Sessions

Introduction to SPSS: Questionnaire/Schedule Design, Characteristics of Variables Identification, Coding, Entering and Editing Data, Importing from Excel, Adding Value Labels for skill development.

UNIT – II

10 Sessions

Scaling: Nominal, Ordinal, Interval & Ratio Scale, Grouping Data, Transforming Variables, Selecting a Subset, Producing summary statistics for skill development.

UNIT – III

10 Sessions

Descriptive Statistics; Frequencies, Central Tendencies: Mean, Median & Mode, Measures of spread, Correlation & Standard Deviation for skill development.

UNIT – IV

10 Sessions

Charts: Bar Charts, Histograms, Pie Charts, Line Graph, Cluster Bar Charts, Scatter Diagrams for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1:Understand the meaning, of SPSS and its The Characteristics of Variable Identification, Coding, Entering and Editing Data, Importing from Excel for skill development.

CO2:Explain The Scaling, Transforming Variables for skill development.

CO3:Explain The Descriptive Statistics ,Central Tendencies, Correlation & Standard Deviation for skill development.

CO4:Explain the Charts and Scatter Diagrams for skill development.

SECOND YEAR

Master of Arts (Sociology) Programme

Semester – III

SOCEC306; Sociology of Deviance

Course Objectives:

The syllabus is designed to introduce students to the emerging social problems, the concept and issues of development in Indian Society. The course intends to focus upon the deviant and delinquent behavior, issue of corruption and other disorganization and structural problems of Indian Society at national level to provide skills and employability.

Course Content:

UNIT I

10 Sessions

Deviance: Its Meaning, Characteristics, Causes of Social Deviance, Forms of Deviance. Crime: Definition, Concept, Elements, Causes, Prevention and Control for skill development.

UNIT II

10 Sessions

New form of Crime: Organized Crime. Special types of Crime: White Collar Crime, Organized Crime, Cyber Crime, Drug Addiction, Suicide, Terrorism for skill development.

UNIT III

10 Sessions

Juvenile Delinquency: Meaning, Definition, Causes, Prevention and Control. The theory of causation of Crime, Classical and Constitutional Theory of Crime: Lombroso and Hooton, Economic Theory of Crime for skill development .and employability.

UNIT IV

10 Sessions

Durkheim's Theory of Anomie, Merton's Theory of Social Structure of Crime. Theory of cultural conflict, Sociological theory of Criminalization Process: Differential Association theory of Sutherland, Labeling theory of Crime for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Define Deviance and Crime. And Explain the Theory of Causation of Crime for skill development.

CO2: Define New form of Crime, White Collar Crime, Cyber Crime, Drug Addiction, Suicide for skill development.

CO3: Explain Juvenile Delinquency, Classical and Constitutional Theory of Crime of Lombroso and Hooton, and Economic Theory for skill development.

CO4: Analyze Merton's theory of Social Structure of Crime, Durkheim's theory of Anomie, Theory of Cultural Conflict and Cohen's Sub-Culture Theory. Describe Differential Association Theory of Sutherland and Labeling Theory of Crime for skill development.

**Master of Arts (Sociology)
Programme
Semester – III
SOCOE301; Disaster Management**

Course Objectives:

To provide students an understanding to the concepts and aspects of disaster and its relationship with development, to ensure awareness of Disaster Risk Reduction (DRR) approaches among students, to assist students develop ability to respond to their environment with potential response to disaster to provide employability and skills.

Course Content:

UNIT I

10 Sessions

Introduction to Disasters : Definition : Disaster, Hazard, Vulnerability, Resilience Risks Types of disasters – Earthquake, Landslide, Flood, Drought, Fire, campus shooting, bomb threat, terrorist incidence for skill development and employability.

UNIT II

10 Sessions

Causes and Impacts including social, economic, political, environmental, health, psychosocial, etc. Differential impacts – in terms of caste, class, gender, age, location disability for skill development and employability.

UNIT III

10 Sessions

Approaches to Disaster Risk Reduction: Disaster life cycle – its analysis, phases, culture of safety, prevention, mitigation and preparedness Community based DRR (Disaster Risk Reduction), Structural-nonstructural measures for skill development and employability.

UNIT IV

10 Sessions

Roles and responsibilities of community: Panchayati Raj Institutions / Urban Local Bodies (PRIs/ULBs), States, Centre, and other stakeholders, Role of international co-operations in Disaster Management for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: The students will be able to know Introduction to Disasters : Definition : Disaster, Hazard, Vulnerability, Resilience Risks Types of disasters for skill development and employability.

CO2: The students will be able to know Causes and Impacts including social, economic, political, environmental, health, psychosocial at global level for skill development and employability.

CO3: The students will be able to know approaches to Disaster Risk Reduction , Disaster life cycle – its analysis, phases, culture of safety, prevention for skill development and employability.

CO4: The students will be able to know Roles and responsibilities of community: Panchayati Raj Institutions / Urban Local Bodies (PRIs/ULBs), States, Centre, and other Stakeholders for skill development and employability.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – III
SOCOE302; Indian Society

Course Objectives:

The Objective of this course is to familiarize the students with the Indian Society, Social system, Caste, Family, approaches to the study of Indian society at national level and substantive knowledge in the aforesaid field to provide employability and skills.

Course Content:

UNIT- I

10 Sessions

Bases of Indian Social System: Verna, Ashram, Purushartha, Doctrine of Karma and Sanskara for skill development.

UNIT-II

10 Sessions

Caste in Contemporary India, Changes in Caste as a unit and Caste as a System, Caste, Class and Power for skill development.

UNIT-III

10 Sessions

Family: Nuclear and Joint Family, Kinship: Patterns and Regional Variations (Irawati Karve) and Marriage and Legislation for skill development.

UNIT-IV

10 Sessions

Approaches to the Study of Indian Society: Dialectical and Indological, Civilization and Functional for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand the Bases of Indian Social System viz. Verna, Ashram, Purushartha, Doctrine of Karma and Sanskara for skill development and employability.

CO2: Describe the Caste in Contemporary India, Changes in Caste as a unit and Caste as a System, Caste, Class and Power for skill development and employability.

CO3: Define the nature of the institution of family and give a description of the types of family. Explain the difference in North and South Indian kinship and describe the marriage patterns in the Indian scenario for skill development and employability.

CO4: Describe the Approaches to the Study of Indian Society for skill development and employability.

SECOND YEAR

Master of Arts (Sociology) Programme

Semester – III

SOCOE303; Gender and Society

Course Objectives:

The objective of this course is to study the concepts of sex and gender, understand the concepts of masculinity and femininity, to study the concept of patriarchy and male dominance in society, to study the nature of sexual division of labour, to study feminist movements and the nature of identity politics, to acquaint with gender problems and their secondary status, to be aware with women's problem, to be familiar with feminism and their struggle for equality, to understand different approaches to feminism, to learn different perspective on women problems, to understand the status of women, to study the role of education and legislation in bringing change in the status of women, at national level to bring awareness about the welfare programmes and women's rights for development of women to provide employability and skills.

Course Content:

UNIT - I

10 Sessions

Basic Concept: Sex and Gender, Social Construction of Gender, Gender Development: Identity and Socialization. Models of Gender Socialization; Gender and Stratification for skill development and employability.

UNIT –II

10 Sessions

Gender and Socio-Cultural Explanation; Approaches to the study of women: Radical, Socialist, Liberal, Psychological, Functional, Marxian and Feminist, Post-Modern for skill development and employability.

UNIT - III

10 Sessions

Gender based Division of Labour/ Work : Women and Work , Major Women Movement Development and Women: Technology , Liberalization , Globalization and impact on Women, Women and politics for skill development and employability.

UNIT - IV

10 Sessions

Women In India; the changing profile; Status of women in India, Special Problems of women in India, Women and Laws, Issues affecting the quality of life of Women; Health, Education and Land rights for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand the concepts of sex and gender, Models of Gender Socialization, and Gender and Stratification for skill development and employability.

CO2: Explain the various Approaches to the study of women and post modern feminism for skill development and employability.

CO3: Discuss Gender based Division of Labour/ Work and Major Women Movement Development and the nature of identity politics in relation to these movements, and impact of Globalization on Women for skill development and employability.

CO4: Understand the status of women in India and their specific problems, and issues at national level affecting their quality of life. Explain the role of education and legislation in bringing change in the status of women for skill development and employability.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – III
BBL606; Human Rights

Course Objectives:

The objective of this course is to lay the foundation of the Human Rights law and acquaint the students with basic human rights institutions to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

Introduction: Nature, Definition, Origin & Development of Human Rights Regime & Jurisprudence of Human Rights for skill development and employability.

UNIT-II

10 Sessions

International Human Rights Law: UN Charter, Convention of 1966, Universal Declaration of Human Rights & International Convenient Economic, Social and Cultural Rights, 1966 for skill development and employability.

UNIT-III

10 Sessions

Human Rights under Indian Constitution: Fundamental Rights, Directive Principles of State Policy, Human Rights Act, 1993 for skill development and employability.

UNIT-IV

10 Sessions

Group Rights: Prisoners, Women & Children, Indigenous People, Disabled, Senior Citizen and Refugees.

Role of Institutions : Role of State, Judiciary, Civil Societies and Media, NHRC Composition, Powers, Functions & NHRC, NCW, NCM, SC/ST Commission, NGOs for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Demonstrate knowledge and understanding of the Nature, Definition, Origin & Development of Human Rights for skill development and employability.

CO2: Explain the International Human Rights Law for skill development and employability.

CO3: Explain the Human Rights under Indian Constitution at national level for skill development and employability.

CO4: Explain the Group Rights, Prisoners, Women & Children, Disabled, Role of Institution, Role of State, Judiciary, Civil Societies and Media for skill development and employability.

**SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – IV**

SOCCC401; Theoretical Perspectives in Sociology

Course Objectives:

The purpose of this course is to familiarize the students with the Theoretical Perspectives of Sociology, Critical Theory, Theory of Structuration, Theory of Power and Practice and substantive knowledge in the aforesaid field to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

Habermas: Critical Theory, Communicative Rationality and Life world, Ulrich Beck: Risk Society, Second Modernization and Reflexive Modernization for skill development.

UNIT-II

10 Sessions

Giddens: Agency and Structure, Theory of Structuration, P. Bourdieu: Habitus and Doxa, The Objective (Field) and the Subjective (Habitus), Theory of Power and Practice for skill development.

UNIT-III

10 Sessions

Foucault: Archaeology of Knowledge and Power, J. Lyotard: Scientific and Narrative Knowledge, Jean Baudrillard: Loss of History and Simulation for skill development.

UNIT-IV

10 Sessions

Derrida: Language, Literature and Theory of Deconstruction for skill development.

Course Outcomes:

Students completing this course will be able to:

CO1: Define and explain the Theoretical Perspectives of Sociology, Habermas, Critical Theory, Ulrich Beck, Second Modernization, Reflexive Modernization for skill development.

CO2: Understand the concept of Giddens: Agency and Structure, P. Bourdieu, Theory of Power and Practice for skill development.

CO3: Understand the M. Foucault: Archaeology of Knowledge and Power, J. Lyotard: Scientific and Narrative Knowledge for skill development.

CO4: Explain the Derrida: Language, Literature and Theory of Deconstruction for skill development.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – IV

SOCCC402; Criminology and Penology

Course Objectives:

The objective of this course is to describe the meaning, nature and scope of criminology and penology, outline the key concepts of the major theories of criminology, Explain Classical and Constitutional Theory of Crime, Understand and discuss the strengths and limitations of various theories. Recognize and discuss the importance of the relationship between theory and practice, evaluate research relating to theories of causation and explain the typologies of crimes and punishments to provide employability and skills.

Course Content:

UNIT – 1

10 Sessions

Criminology: Definition, Scope and Nature. The Theory of Causation of Crime, Classical and Constitutional Theory of Crime: Lombroso and Hooton and Economic Theory for skill development and employability.

UNIT – II

10 Sessions

Merton's theory of Social Structure of Crime, Durkheim's theory of Anomie, Theory of Cultural Conflict, Cohen's Sub-Culture Theory, Sociological Theory of Criminalization Process: Differential Association Theory of Sutherland, Labeling Theory of Crime for skill development and employability.

UNIT – III

10 Sessions

Special Types of Crime: White-Collar Crime, Juvenile Delinquency, Development of Criminal Organizations. Definition of Punishment, Types, justification of Punishment and Theory of Punishment, Capital Punishment for skill development and employability.

UNIT – IV

10 Sessions

Police System, Judicial System, Probation, Parole, Walless Prison, Victimology for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Define Criminology and Explain the Theory of Causation of Crime, explain Classical and Constitutional Theory of Crime of Lombroso and Hooton, and Economic Theory for skill development and employability.

CO2: Analyze Merton's theory of Social Structure of Crime, Durkheim's theory of Anomie, Theory of Cultural Conflict and Cohen's Sub-Culture Theory, describe Differential Association Theory of Sutherland and Labeling Theory of Crime for skill development and employability.

CO3: Explain the Special Types of Crime: White-Collar Crime, Juvenile Delinquency, Development of Criminal Organizations for skill development and employability.

CO4: Explain the typologies of crimes and punishments, understand the Police and Judicial System and define the terms Probation, Parole, Walless Prison, and Victimology for skill development and employability.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – IV

SOCCC451; Dissertation & Viva-Voce

Course Objectives:

The students will be able to know how to write a project report / dissertation.

Note:

The students under the supervision of a faculty member will select a topic from his/her field of specialization for the dissertation work. The dissertation shall be fieldwork based start. It will contain at least 70-100 pages including maps and diagrams. The dissertation report duly signed by the supervisor concerned is submitted to the Department before commencement of the theory examination of the University or as per instructions given by the University. There shall be internal/external viva-voce on dissertation. The viva-voce will be internal/ external and shall be conducted before submitting the dissertation to the University. The student will present his/ her findings before the audience of department (teachers and P.G. students). The questions will be asked by the faculty members and students. The supervisor will act as an internal examiner, and the internal marks will be awarded by him/ her. The distribution of marks for dissertation course will be as follows to provide employability and skills.

Scheme of Evaluation: (out of 100)

1. Evaluation & Viva Voce- 70 Marks ((External)
2. Evaluation - 30 Marks (Internal)

Course Outcomes:

The students will learn to write a project report / dissertation, after duly following all the steps in research methodology, which are taught in the course entitled Research Methods and Techniques in Sociology.

SECOND YEAR
Master of Arts (Sociology)
Programme
Semester – IV
SOCEC403; Globalization and Society

Course Objectives:

This paper aims to delineate the characteristics of and the issues relating to globalization. After an introduction to the nature and dynamics of globalization, it explains the various agencies involved in this process, examines its socioeconomic and cultural impact. It finally examines the Indian experience of globalization and reflects on its problems and prospects to provide employability and skills.

Course Content:

UNIT-I

10 Sessions

The Historical and Social Context of Globalization: Concept of Globalization; Distinctive Characteristics of Globalization; Global vs. local; Modernization and Globalization for skill development and employability.

UNIT-II

10 Sessions

Structures and Process of Globalization; Perspectives on Globalization: Robertson and Giddens; Hyper-globalization, Global Scepticism, Transformationalism for skill development and employability.

UNIT-III

10 Sessions

Political Economy of Globalization; Agencies of Globalization: Multinational Corporations (MNCs), Nation-state, Media, Market, Non-Governmental Organizations (NGOs), International Agencies (International Monetary Fund & World Bank) for skill development and employability.

UNIT-IV

10 Sessions

Inequality within and among Nation States: Socio-economic Impact of Globalization; Impact on Individual and Group Identities; Hegemony and Dominance: Globalization and the Resurgence of Ethnic Consciousness for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Define and explain the globalization and Society, Understand the concept of Historical and Social Context of Globalization: Concept of Globalization, Distinctive Characteristics of Globalization for skill development and employability.

CO2: Understand the Structures and Process of Globalization, Agencies of Globalization, Perspectives on Globalization: Robertson and Giddens for skill development and employability.

CO3: Explain the Political Economy of Globalization. Multinational Corporations (MNCs), Nation-state, Media, Market, Non-Governmental Organizations for skill development and employability.

CO4: Define and explain the Inequality within and among Nation States, Socio-economic Impact of Globalization, Impact on Individual and Group Identities for skill development and employability.

**SECOND YEAR
Master of Arts (Sociology)
Programme**

Semester – IV

SOCEC405; Law & Society

Course Objectives:

This subject aim at helping students to acquire a complete and critical knowledge of the main concepts, principles and postulates of Legal Sociology. Students are expected to ask themselves about the legality of Law in society: Law, what is its purpose? Law, for whom? It therefore proposes a critical reflection on the role of Law in societies, especially the new millennium's societies to provide employability and skills.

Course Content:

UNIT – 1

10 Sessions

Concept of Law, Social basis of Law, Relation between law and society, Social Justice, Social change and Law for skill development and employability.

UNIT – II

10 Sessions

Sociological theory of Crime: Theory of Differential Association, Multiple factor theory of Crime Causation, Modern Labeling Theory for skill development and employability.

UNIT – III

10 Sessions

Social Control: Concept, Types, Theories of Social Control, Distinction between formal and informal Social Control, Agencies of Social Control: Family, Religion, Folkways, Mores, Public Opinion and Law for skill development and employability.

UNIT – IV

10 Sessions

Social Problem: Concept, Characteristics of Social Problems, issues of Ethic and internal conflicts, Unemployment, Poverty, Terrorism and Drug Abuse for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1:To identify the different theoretical conceptions of Sociology of Law, Relation between law and society, To understand Law as a social fact for skill development and employability.

CO2:To analyze the influence of social factors on the production of contemporary law ,Theory of Differential Association for skill development and employability.

CO3:To understand Social Control: Concept, Types, Theories of Social Control, Agencies of Social Control for skill development and employability.

CO4:To understand Social Problem: Concept, Characteristics of Social Problems for skill development and employability.

SECOND YEAR

Master of Arts (Sociology)

Programme

Semester – IV

SOCOE401; Industrial Sociology

Course Objectives:

The objective of this course is to have insight into the social aspects of Industry, Scientific understanding of social aspects, Employer-Employee relationship, Solutions to the problems of Industrial Society, Scientific division of labours, Social and labour welfare and Views “Industry” as a “Complex Social Organization” to provide employability and skills.

Course Content:

UNIT - I

10 Sessions

Industrial Sociology: Definition, Scope, Industrial Dimensions of Society: Division of Labour, Anomie, Bureaucracy & Rationalization, Surplus Value of Karl Marx; Factories Act. 1948 and Industrial Dispute Act 1947 for skill development and employability.

UNIT – II

10 Sessions

Industrial Work: Definition and Nature, Capitalist & Post-Capitalist Society; Industrial Society & Post- Industrial Society; Human Relations in Industry for skill development and employability.

UNIT – III

10 Sessions

Industrial Relations, Industrial Dispute: Causes and Methods (Conciliation, Adjudication and Arbitration); Changing Profile of Labour; Collective Bargaining and Trade Unions; Workers Participation in Management for skill development and employability.

UNIT - IV

10 Sessions

Industrialization and Social Change in India; Impact of Industrialization on Stratification, Impact of Industrialization on Family and Education; Class and Class Conflict in Industrial Society; Implements to and Limitations of Industrialization for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Explain the concept of Industrial Sociology and outline the Industrial Dimensions of Society, Bureaucracy & Rationalization, Surplus Value of Karl Marx for skill development and employability.

CO2: Outline the concept of Industrial Work and make a distinction between Capitalist & Post-Capitalist Society, Industrial Society & Post- Industrial Society for skill development and employability.

CO3: Describe Industrial Relations and discuss Causes of Industrial Dispute. Outline the process of collective bargaining or method for setting industrial dispute. Explain the Impact of Industrialization on Stratification, on Family and Education, discuss the Limitations of Industrialization for skill development and employability.

CO4: Review the work of Industrialization and Social Change in India, Class and Class Conflict in Industrial Society for skill development and employability.

SOCOE402; Sociology of Health

Course Objectives:

The objective of this course is to know meaning, aim, objectives and scope of Health Sociology, Major theoretical approaches to health sociology. The concept of health and illness and different social determinates of health and illness, major contributions of health sociology and Social Medicine, It's Evolution and development. Functionalist, Conflict, Interaction is Perspectives on Sociology of Health, The concept of community Health, Major health issues in India, Major government schemes and programmes to combat the community health problems, Concept of Integrated health approach to health care in India, The concept of Integrated Child Development Services in India: its structure, function, scope, impact and drawbacks. The correlation between unequal distribution of health services and health inequalities, Meaning of Interpersonal relationship in hospital setting and its importance to provide employability and skills.

Course Content:

UNIT I

10 Sessions

Sociology of Health: Concepts and meaning; Health; Illness; Sickness; Diseases; Hygiene; Medicalization; Medical Model; Dimensions and indicators of health; Social Epidemiology for skill development and employability.

UNIT II

10 Sessions

Perspectives on Sociology of Health: Functionalist, Conflict, Interactionist, and Post-Modern , Family and Health care: The elderly, gender for skill development and employability.

UNIT III

10 Sessions

State and health Care: Health for all; maternal and child health; family welfare programmes; Sanitation; Hospitals and Health Care: Hospital as a social organization (Doctors, Nurses and Patients); Community Health Care; Rural Health Programs; Commercialization of health care services for skill development and employability.

UNIT IV

10 Sessions

Indigenous Knowledge systems of medicine in Developing Countries: Systems of Medicine and alternative practices; NGOs and Health Care; Communicable diseases for skill development and employability.

Course Outcomes:

Students completing this course will be able to:

CO1: Define Sociology of Health and Explain the concept of health and illness, and Dimensions and indicators of health for skill development and employability.

CO2: Explain the Functionalist, Conflict; Interaction is Perspectives on Sociology of Health for skill development and employability.

CO3: Understand the concept of Family and Health care and explain the Health care facilities for elderly, maternal and children, Community Health Care for skill development and employability.

CO4: Explain the concept of community Health, discuss Major health issues in India, and state the Major government schemes and programmes to combat the community health problems. Explain the role of NGOs and Health care professionals in combating health issues in Developing Countries for skill development and employability.

SECOND YEAR

Master of Arts (Sociology) Programme

Semester – IV

BSB205T; Environmental Science

Course Objectives:

The objectives of this course are to develop understanding of how science and the scientific method work to address environmental problems, to make the student familiar with the Earth's major systems (ecosystems and biogeochemical cycles), to acknowledge how environment functions and how they are affected by human activity (population growth, air, water and soil pollution, ozone depletion, global warming, and solid waste disposal) and to let students learn about the interaction of human society (urban sprawl, energy use/generation, resource consumption and economics) with the Earth's systems knowledge for better employability in industry.

Course Content:

UNIT I

10 Sessions

Environmental Sciences: Introduction, definition, Scope, Importance, Need for Public Awareness; Natural Resources: Renewable and non-renewable resources; Biogeochemical Cycles, Ecological Succession, Ecological pyramids for skill development.

UNIT II

10 Sessions

Concept of an Ecosystem: Structure and function of an ecosystem, Producers, consumers and decomposers, Energy flow in the ecosystem, Food chains and food webs. Introduction, types, characteristic features, structure and function of the following ecosystem: Forest ecosystem, Grassland ecosystem, Desert ecosystem, Aquatic ecosystems (ponds, streams, lakes, rivers, ocean) for entrepreneurship and employability.

UNIT III

10 Sessions

Environmental Pollution: Pollutants, Causes, effects and control measures of: Air pollution, Water pollution, Soil pollution, Marine pollution, Noise pollution, Thermal pollution, Nuclear pollution; Solid waste management: Causes, effects and control measures of urban and industrial wastes for better skills of employability.

UNIT IV

10 Sessions

Biodiversity: Biogeographical classification of India, Hot-spots of biodiversity, Biodiversity at global, national and local levels, Value of biodiversity- consumptive use, productive uses, social, ethical aesthetic and option values, Threats to biodiversity- habitat loss, poaching of wildlife, man-wildlife conflicts, Endangered and endemic species of India, Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity.

UNIT V

Global Phenomenon & Their Management: Global warming, acid rains, depletion of ozone layer, population growth, population explosion-family welfare Program and human rights,

Biofertilizers, Biopesticides, vermi-composting onto inculcate skill provide employability & entrepreneurial skills.

Course Outcomes:

At the end of the course students will be able to:

CO1: Understand about the introductory concept of environmental science, renewable and non-renewable resources, biogeochemical cycles, ecological succession and ecological pyramid for skill development.

CO2: Learn about the concept of an ecosystem and structure & function of various ecosystem.

CO3: Learn about various types of environmental pollution and pollutants.

CO4: Understand about the concept of biodiversity, its value and conservation.

CO5: Learn about the various global phenomenon and their management for understanding for entrepreneurial skill.

PO-CO Mapping (Please write 3, 2, 1 wherever required)

(Note: 3 for highly mapped, 2 for medium mapped and 1 for low mapped)

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9

**SECOND YEAR
Master of Arts (Sociology)
Programme**

Semester – IV

MBA101; Management Concepts and Organizational Behavior

Course Objectives:

This course is designed to expose the students to fundamental concepts of management, its processes and behavioural dynamics in organizations to inculcate skill, provide employability & entrepreneurial skills.

Course Content:

UNIT I

10 Sessions

Introduction to Management: Meaning, Nature and Functions of Management, Evolution of Management thoughts, Management by Objectives (MBO) for skill development and entrepreneurial development.

UNIT II

10 Sessions

Process of Management: Planning, Organizing, Staffing, Directing, Coordinating and Controlling for skill development and entrepreneurial development.

UNIT III

10 Sessions

Fundamentals of Organizational Behaviour (OB): Meaning, Models of OB, Emergence of OB as a discipline, OB Trends, Organizational Culture and Climate, Leadership and their Styles and Motivation theories for skill development and increasing employability.

UNIT IV

10 Sessions

Individual & Group Behaviour: Individual determinants of OB, Perception, Learning, Emotions, Attitudes, Personality, Stress, Group Dynamics and Work Teams, Power, Politics, Interpersonal behaviour and relations, Transactional Analysis for skill development and entrepreneurial development.

Course Outcomes:

Students completing this course will be able to:

CO1: Understand the basic concepts, evolution and thoughts related to management for skill development and entrepreneurial development.

CO2: Demonstrate the roles, skills and functions of management starting from planning till controlling for skill development and entrepreneurial development.

CO3: Describe the general history of organizational theory and practice and frame how organizational behaviour has developed from these into a discrete field for skill development and increasing employability.

CO4: Analyse the behaviour of individuals and groups in organisations in terms of organisational behaviour theories on national basis, models and concepts and apply the same to real life management situations for skill development and entrepreneurial development.

PO-CO Mapping (Please write 3, 2, 1 wherever required)

(Note: 3 for highly mapped, 2 for medium mapped and 1 for low mapped)

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9
