Preface

This book A Text book of Pharmaceutics is designed specially as per PCI (Pharmacy Council of India) B Pharmacy first semester students. This book cover wide areas & contains a comprehensive description of existing knowledge of pharmaceutics. This text not only deals with the basic concepts but also emphasizes technical and practical aspects of the subject. The book is primarily intended as textbook for the students of pharmacy for the degree and diploma courses.

The book contains numerous specimens, vivid illustrations, tables, diagrams and flow charts to present the ideas. The structure and contents of the book have been changed to reflect modern thinking and current university curricula throughout the world. In spite of great care there might be some mistake and deficiencies. The suggestions for further improvement will be gratefully acknowledged.
