Fields Of Pharmacy

The field of Pharmacy can generally be divided into various disciplines:

- (a) Pharmaceutics. (b) Medicinal chemistry
- (c) Pharmacognosy
- (d) Pharmacology.

The boundaries between these disciplines and with other sciences, such as biochemistry, are not always clear-cut; and often, collaborative teams from various disciplines research together.

Pharmacology is sometimes considered a discipline of pharmacy. Although pharmacology is essential to the study of pharmacy, and is not specific for pharmacy. Therefore it is usually considered to be a field of the broader sciences.

Other specializations in pharmacy practice include:

Specialties include: cardiovascular,
