MORADABAD

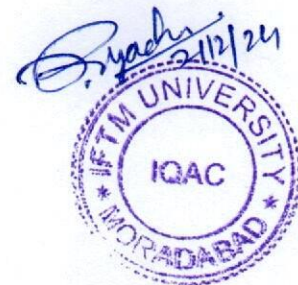

ACTION TAKEN REPORT

BASED ON

(GENERAL FEEDBACK ANALYSIS)

2023-24

SCHOOL OF AGRICULTURAL SCIENCES &
ENGINEERING

Based on the feedback survey conducted for the year 2023-24, a sliding trend was observed in some of the vital parameters. To address the issues, following measures were planned/taken by the department.

S. NO.	ISSUE	ACTION
1	Some of the teachers were unable to expressed clear views regarding the availability of safe drinking water and water resources	Regular testing is conducted on water sources to ensure compliance with safety standards. Any discrepancies found during testing is addressed immediately
2	A few students showed dissent that internet facility was available in the department.	IT team was approached to track instances of internet downtime and to implement measures to minimize disruptions. Areas with weak or no internet coverage were investigated and additional Wi-Fi access points and signal boosters were installed to ensure full coverage across the department.
3	A few of the students expressed dissatisfaction regarding the availability of safe drinking water and water resources	Regular testing is conducted on water sources to ensure compliance with safety standards. Any discrepancies found during testing is addressed immediately
4	Some employer was dissatisfied by the knowledge of student for using recent technology and workplace equipment.	For better understanding of the technology, the university has reviewed and enhanced training programs for the students. It is considered to provide more hands-on support or access to resources.
5	Relationship with seniors/peers/ subordinates and involvement in social activities.	More frequent interactions between seniors and juniors have been ensured. Team-building activities, group discussions, were organised to improve peer relationships and reduce any existing tensions.
