IFTM UNIVERSITY
MORADABAD.

Based on the feedback survey conducted for the year 2019-20, a down trend was observed in some of the vital parameters. To address the issues, following measures were planned / taken.

S.NO.	ISSUE	ACTION
1	Many students opined about their dissatisfaction as they could not participate in the alumni meet	'Kutumb' the alumni meet was organized in early March 2020, however, not all the students could join because of multiple reasons. The time of the event is largely fixed and was decided after a thorough deliberation by the University officials.
2	Lesser number of students were found satisfied with the training and placement provided by the University.	Students are being provided the opportunities suitable for them. It was learnt that many students were seeking placements in their home town or nearby their villages, which was impractical since most of the job opportunities (technical) are in urban areas and probably not in the home town. Students were accordingly briefed and counseled by the T&P Cell.
3	Students were apprehensive about the caliber of the students studied with them	The University believes in equal opportunity and access to education for people from all walks of life. The situation needed no change in the current approach.
4	Only few students were willing to contribute to the development of the Department	The Alumni coordinators keep updating and contacting the alumni of the department to encourage more people to join the alumni association. Their interest is sought to deliver session / interact with the students.
5	Students were not completely satisfied with the laboratories and equipment.	The laboratory in the department gets updated with all the necessary inputs required for its functioning. The faulty and broken apparatus, scales and other equipment were changed, as part of routine activity.
6	Students complained about the computer	The Department has its own computer lab and the faulty computers / parts are replaced as part of regular maintenance

	facilities in the department	and the capacity enhancement is done post assessment of need and necessary approvals.
7	Students shared their dissatisfaction with the state of their classrooms	The required renovation and repair work happens periodically. No immediate action was required. The furniture was repaired in classrooms wherever it was required.
